

Amazing Birds

There are many different types of birds. Let's look at some.

Owls live in the forest. They hunt at night. They have big eyes and sharp talons.

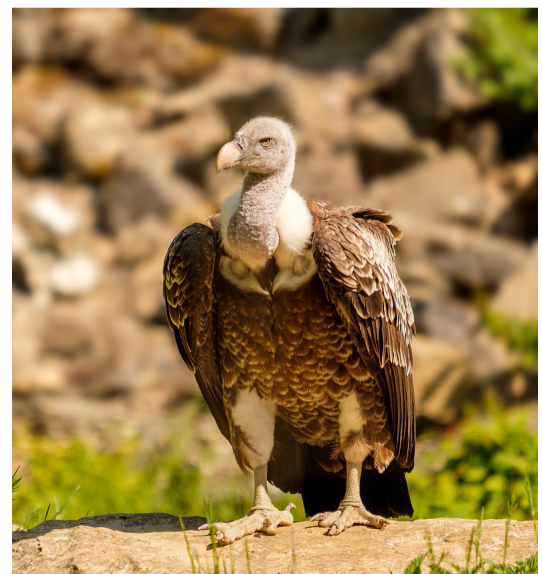

Penguins live in the arctic. Their feathers help keep them warm. They can't fly, but they can swim very fast.

Parrots live in the jungle. They have bright feathers and long tails. Some parrots can talk.

Ostriches live in the savanna. They are the world's largest bird. They can't fly, but they can run very fast.

Vultures live in the desert. They like to eat dead things with their sharp beak. They have big wings.
